

SOUTH COAST MANAGEMENT GROUP
Post - Special General Meeting 21 JUNE 2019
Workshop Notes

Discussion summary on ways the coastal managers network can continue:

- 1) A yearly coastal forum coordinated by a SCNRM staff member, open to all. Community attendance support by SCMG funds.
- 2) Annual coastal managers workshop to ID potential emerging issues or projects in common. Once a year held around March to allow for LG Budgets. Councillor and Reserve Officers attendance.
- 3) The name South Coast Management Group may be used by SCNRM to cover a non-incorporated coastal network of Local Governments.
- 4) SCNRM have suggested that any community members who would like to remain active in this area to nominate for the vacant position on SCNRM's Biodiversity Reference Group.

MEDIA AND INFORMATION FOR SCMG NETWORK

- Brett encouraged SCMG members to use the SCNRM's Facebook page and newsletter to distribute information about their activities and to remain informed about coastal funding and projects.
- Encourage community nomination to the Biodiversity Reference Group
- There is strong commitment by SCNRM to support LG coastal managers networking and collaboration for the next 4 years. Members would like to thank SCNRM for their commitment to continue the work of SCMG.
- Acknowledge the past successes of the SCMG and the previous members who contributed so much to the group.
- Acknowledge that coastal management practices have changed considerably since the group was formed. At that time it was largely only Coastcare and community groups able to access funding and coastal management work was undertaken in a reactive manner as needs arose. Since the development of Southern Shores all the LG's now have coastal management plans with implementation budgets. In addition LG's are now able to access funding to undertake coastal management works.

CODE OFF ROAD

Confirmed that SCNRM has reproduction rights. Group is happy for printing costs to come out of the handover funds, but that this should not consume all of the funds as it is felt the networking is the higher priority.

Brett dal Pozzo has committed to have the letter to SCMG Executive prior to Tuesday 2nd July.

ACKNOWLEDGMENTS

Carol Daniels thanks SCMG for the ongoing effort and the input that Exec and members have put into SCMG over the years, with minimal support.

Peter Caron thanks all involved over the years, including community members, LG members and staff, advisors, SCNRM and more.
